

COMPATIBILITY AND FIXED POINTS THEOREM IN FUZZY 2-METRIC SPACES

Jinkyu Han

Received September 26, 2011

Abstract

In this paper, we show the equivalent formulation of definitions of various compatibilities and establish a fixed point theorem for four self maps in fuzzy 2-metric space.

Keywords and phrases: fuzzy metric space, fuzzy 2-metric space, compatible mapping, compatible of type α , compatible of type β , common fixed point.
