Abstract

In [S. Khan and A. Al-Gonah, Multi-variable Hermite matrix polynomials: properties and applications, J. Math. Anal. 412 (2014), 222-235], S. Khan and A. Al-Gonah defined the 2-index 2-variable Chebyshev matrix polynomials of the second kind. We defined Chebyshev-like matrix polynomials of the same type including them.

Keywords and phrases: Chebyshev-like matrix polynomials, 2-index 2-variable.
